Each year, our 'Where our Learners Live' map grows!!

"I am so impressed with your lessons. You are the first teacher he has ever worked with online, whose teaching style he liked! He said he learns a lot from you. You are so much more engaging than a lot of tutors we have tried. Thank you"

COURSE FORMATS

Primary, Secondary, GCSE/IGCSE courses are available in two formats:

I) Online, Live format, using the Canvas learning platform and Live sessions on Zoom (includes tutorials, documents, assignments & more!)

II) Online, Flexible format, using the Canvas learning platform and pre-recorded sessions (includes tutorials, documents, assignments & more!)

Ellis's Worldventures uses a unique, interactive weekly 'timed drop' format

Primary Age (9-11yrs)

Online, Flexible timing format – enroll any time

Online, Live sessions – see times/dates in course descriptions

MATHS IN ART & DESIGN (4-SESSION COURSE) £30

Mathematics and art intersect in our world in beautiful ways, particularly when it comes to design. Without mathematics and artistic vision, we wouldn't have the amazing textiles, phenomenal buildings, or dramatic interiors that thrill and delight all of us. An excellent introduction to: geometry, symmetry, angles, polygons, translations, transformations and more!

Available: Online, Flexible Format – enrol at anytime

Available: Online, Live – stay tuned for 2023 days/times

Maths

Art&Design

GREEN ARCHITECTURE (6-SESSION COURSE) £45

We look at houses built over waterfalls, overpasses for animal traffic and trees made of iron ... looking at the art and science of architecture through an environmental perspective. Each week we look at a new type of structure and a different aspect of sustainable architecture. If your young person loves design and the environment, this course could be perfect for them! This fascinating course includes elements of Geography, Science, and Art & Design.

Available: Online, Flexible Format – enrol at anytime

Available: Online, Live – stay tuned for 2023 days/times

Art&Design

FAMOUS BUILDINGS AND ARCHITECTS (4-SESSION COURSE) £30

There are some buildings, that are so famous, so iconic, we will recognize them for our whole lives. Delve behind the scenes into the design and history of famous buildings (and the architects behind them) from around the world. We explore a range of supporting ideas, including visual balance, design principles, materials, engineering and plate tectonics!

Available: Online, Flexible Format – enrol at anytime

Available: Online, Live – Starting Sept 16th, 9:30am (4 consecutive Fridays)

Art&Design

History

SECRETS OF THE PERIODIC TABLE (4-SESSION COURSE) £30

Where on Earth can you find some of the rarest elements? Which elements are we fast running out of, and where will we get more? What do diamond rings and pencils have in common?

We explore a range of fascinating secrets of the Periodic Table in, this fun and interactive Science course.

Available: Online, Flexible Format – enrol at anytime

Available: Online, Live – stay tuned for 2023 days/times

Science

KINGDOMS & CLASSIFICATIONS (4-SESSIONS) £30

What do crabs and spiders have in common? Or horses and rhinoceroses? In this fascinating course that explores kingdoms and classifications, we look at a wide range of living organisms and see who is related to whom, and why! A fantastic Science course with some elements of Geography and History, as well.

Available: Online, Flexible Format – enrol at anytime

Available: Online, Live – stay tuned for 2023 days/times

Science

ZOOLOGIST CLUB (6-SESSION COURSE) £45

Covering a new animal each week, we explore naming, kingdoms, habitats, ecosystems and conservation.

From the teeny weeny to the massive, from animals with wings to those that have tusks, from bright pink to deep green – we take a virtual magnifying glass to the life of an amazing array of creatures. A unique Club, perfect for 9-11 yr olds.

Available: Online, Flexible Format – enrol at anytime

Available: Online, Live – stay tuned for 2023 days/times

Science

SOLAR SYSTEM SCIENCE (6-SESSION COURSE) £45

Venusian pancake volcanoes, aurora borealis, and diamond planets all make an appearance in this course exploring the wonders of our solar system! We cover a range of fascinating topics spanning the sun, asteroids, moons, comets and planets. Explore this subject in detail and practice applying knowledge right away. A fun primary Science course.

Available: Online, Flexible Format – enrol at anytime

Available: Online, Live – stay tuned for 2023 days/times

Science

THE SILK ROAD (6-SESSION COURSE) £45

When spices were more precious than diamonds, trade across Asia in the Middle Ages didn't just bring food, but also ideas, mathematics and philosophies.

We explore why the Silk Road was so important, as we investigate the different goods that were traded, including silk, teas, salt, sugar, porcelain, spices and cotton. This fascinating course covers History, Business, Philosophy, Design & Inventions.

Available: Online, Flexible Format – enrol at anytime

Available: Online, Live – stay tuned for 2023 days/times

History

VIKINGS: FACTS AND MYTHS (4-SESSION COURSE) £30

From daring adventures across Europe, to founding settlements in Greenland and North America five hundred years before Christopher Columbus, we explore Viking truths and legends.

From days of the week to burial rituals, we explore facts, myths and rumours. A delightfully broad ranging course that covers elements of both History and Geography.

Available: Online, Flexible Format – enrol at anytime

Available: Online, Live – stay tuned for 2023 days/times

History

BUSINESSES & BRANDS (6-SESSION COURSE) £45

There are brands all around us, influencing what we do and what we believe. This course looks at some popular brands to see what they have done well, and not so well!

We explore a variety of well-known Brands looking at their products, pricing, advertising and environmental activities, to get a good understanding of how today's businesses work.

Available: Online, Flexible Format – enrol at anytime

Available: Online, Live – stay tuned for 2023 days/times

Business

MAPLE SYRUP MATHS (4-SESSION COURSE) £30

This tasty course uses maple syrup, made from one of the world's most unusual natural resources, to explore a variety of Mathematical concepts.

An excellent introduction to: fractions, decimals, place values, perimeter and area and more ... using fun and interesting examples and problems, ranging from carpark design to pancake throwing contests!

Available: Online, Flexible Format – enrol at anytime

Available: Online, Live – stay tuned for 2023 days/times

Maths

MONEY AND YOU – FUNDAMENTALS – KS2 (CODE: PMON) £30

2022
Sale Price
£20

Money and You Fundamentals

Finance is a part of our everyday life, and having basic personal financial knowledge is one of the most important things you can do to live a healthy, happy and secure life. Understanding the fundamentals of money, budgeting, saving and debt can:

- promote good savings habits
- teach financial awareness and responsibility
- lead to financial health and positive attitudes around money

Young people should have the benefit of financial experience and education to make good decisions with money - big or small.

Our 'Money and You' courses are created, developed and run by a business and economics specialist, and highly experienced educator. Engaging, interesting and dynamic courses to really inspire your young person. Perfect for ages 9-11.

Course Topics

1. What is money and how do we use it
2. Different ways of paying for things
3. How Banks work
4. Savings and Interest
5. Budgets and Making Choices
6. Keeping your money safe
7. What is debt

Each topic features: i) a pre-recorded tutorial (with interactive aspects that allow your young person to 'play along at home'), ii) activities (assignments, quizzes, projects, etc.) , iii) a save-able information pack

And, at the end of each course, your young person is also eligible for a personal Certificate of Achievement.

Available: Online, Flexible Format – enrol at anytime; Available: Online, Live – stay tuned for 2023 days/times

ELLIS'S WORLDVENTURES (LATE PRIMARY 9-11YRS)

Ellis's Worldventures delivers the UK National Curriculum in a delightfully unique and interactive way.

Our inquisitive character 'Ellis' takes learners on an incredible journey through different times and places, exploring key curriculum topics along the way. Each weekly update from Ellis is written in the style of a travel diary/letter, with an adventurous story line. Each update tells part of the life of Ellis and how, in the course of life, the need for specific knowledge arises. An unconventional

'course' where you can step into Ellis's life of adventure and exploration. Written in first person to the reader, Ellis introduces new ideas and concepts which are embedded within an entertaining storyline. These courses are designed to teach key curriculum ideas by building in foundation concepts without repetition and traditional 'practice questions'.

Your young person will be eagerly anticipating Ellis's weekly updates (with a lesson buried within!), activities, and interactions ... a creative and interactive way to develop late Primary stage knowledge. £50 1yr subscription

English

Science

History

Maths

Geography

Structure:

- Worldventures runs over 50 weeks, with weekly updates every Monday
- Each week brings Ellis's "update" which includes:
 - a new story document from Ellis
 - engaging and interactive activities, 1 for each day of the week
 - extra supporting resources
 (all based around the core elements of the UK National Curriculum, for this age group)
- New enrolments start on the 1st of each month
- Course Fees: each individual subject course is available for a yearly subscription fee of only £50

WV1: Ellis's Worldventures - Mathematics

Some of the topics covered within Ellis's Worldventures include: whole numbers, negative numbers, rounding, order of operations, fractions, decimals and much more!

Maths

WV2: Ellis's Worldventures - English

Some of the curriculum topics covered in Ellis's Worldventures include: root words, prefixes and suffixes, distinguish between statements of fact and opinion, metaphor, simile, analogy, imagery, and more!

English

WV3: Ellis's Worldventures - Geography

Some of the curriculum topics covered include: physical geography, human geography, latitude, longitude, Equator, Northern Hemisphere, Southern Hemisphere, the Tropics of Cancer and Capricorn, Arctic and Antarctic Circle, the Prime/Greenwich Meridian, time zones and more!

Geography

WV4: Ellis's Worldventures - History

Some of the fascinating topics covered within Ellis's Worldventures include: stone age, bronze age, iron age, the Roman Empire, the Aztecs, the Industrial Revolution, Chinese Dynasties and more!

History

WV5: Ellis's Worldventures - Science

Some of the fascinating topics included within Ellis's Worldventures include: classification systems and naming, human biology (circulation, respiration, brain function), adaptation, light, electricity and more!

Science

Course Formats

Primary courses are available in two formats:

I) Online, Live format, using the Canvas learning platform and Live sessions on Zoom (includes video tutorials, documents, assignments & more!)

II) Online, Flexible format, using the Canvas learning platform and pre-recorded sessions (includes video tutorials, documents, assignments & more!)

Ellis's Worldventures uses a unique, interactive weekly 'timed drop' format

"You are an amazing tutor. I can't thank you enough for everything, from the load of emails I sent you, the help I received, through every process and step. You are truly remarkable."

"DD was upset on Wednesday saying I wish we could carry on, I don't want the course to end, I want to hear more of Kate, she made the course so interesting, I never knew I would like Business so much. Thank you ever so much behalf of DD and myself"

"M gets so excited with your lessons. He watched the recorded version and kept pausing it to say the answer. Thank you for being an amazing teacher. He finished with "mum i really love her lessons"! I couldn't have taught him with the enthusiasm you have"

Secondary Age (11-15yrs)

Online, Flexible timing format – enroll any time

Online, Live sessions – see times/dates in course descriptions

Science & Astronomy

HISTORY OF SPACE TRAVEL (CODE:SSPA 4-SESSIONS) £30

History of Space Travel

From fruit flies to dogs to robots, we explore the history of space travel starting from our third rock from the sun (Earth).

From missions within our solar system to those intended to go beyond, this course is a fascinating look at some of the best, strangest, and most thought-provoking space missions.

Available: Online, Flexible Format – enrol at anytime

Available: Online, Live – stay tuned for 2023 days/times

Science

History

INTRODUCTION TO ASTRONOMY (CODE: SAST – 6-SESSIONS) £45

Perfect for those who are curious about what we see in the sky, this course will teach you to spot asterisms, know when to look for planets, recognise the different phases of the moon as well as the various lunar features visible from earth and begin to grasp the interactions between the earth, moon and sun. We will also learn more about the people who discovered and charted the various heavenly bodies, this course is an excellent precursor for a GCSE in Astronomy and will involve some maths. *Available: Online, Flexible Format – enrol at anytime*

Available: Online, Live – stay tuned for 2023 days/times

Science

EXPLORING THE MYSTERIES OF SPACE (CODE: SMSP – 6-SESSIONS) £45

Exploring The

What exactly is dark energy? Could you jump into a black hole and find yourself in an alternate universe? We will be exploring these exciting questions as we delve into some of the more complex concepts in space - this unit will also develop an understanding of gravity, Quantum mechanics and Newtonian forces as we use this knowledge to enable us to fully grasp what we are learning. An excellent stand-alone course and also a PRE-IGCSE course.

Available: Online, Flexible Format – enrol at anytime

Available: Online, Live – stay tuned for 2023 days/times

Science

AN INTRODUCTION TO CHEMISTRY (CODE: SICH – 6-SESSION COURSE) £45

A solid foundation for any future studies in chemistry, we will be looking at what an atom is, their structure and how it differs between elements, the periodic table and how it is arranged and what we can learn about different elements from it. We will then build up to how atoms join together to form compounds, why some elements are more reactive than others and learn how to write and balance chemical equations. An excellent stand-alone course & PRE-IGCSE course.

Available: Online, Flexible Format – enrol at anytime

Available: Online, Live – stay tuned for 2023 days/times

Science

AN INTRODUCTION TO ORGANIC CHEMISTRY (6-SESSION COURSE) £45

This is the next level course for people who have done the 'Introduction to Chemistry' course or have a good foundational understanding of chemistry. Organic chemistry focuses on carbon molecules – which are central to all living organisms on earth. And organic compounds are key to the huge range of synthetic materials created by chemists, used as drugs, medicines and plastics. An excellent stand-alone course & PRE-IGCSE course.

Available: Online, Flexible Format – enrol at anytime

Available: Online, Live – Starting 10th January 2023, 11:15am (6 consecutive Tuesdays)

Science

CELLS: THE BUILDING BLOCKS OF LIFE (CODE: SCELL – 6-SESSIONS) £45

In this short course we are going to go down to the basic building blocks of life – cells, we will look at what a cell is made up of and how this varies between plants, animals and bacteria as well as exploring the complexities of different cell types within our own bodies – how are the cells that make up our muscles different to those that carry oxygen round our body? We will also learn how to use a microscope to identify these different types of cells and have a go preparing our own slides. This course is an excellent stand-alone course and is also a PRE-IGCSE course.

Available: Online, Flexible Format – enrol at anytime

Available: Online, Live – Starting 13th September, 11:15am (6 consecutive Tuesdays)

Science

ORGAN SYSTEMS & OUR BODIES (CODE: SOOS – 6-SESSIONS) £45

In this short course we are going to be looking at our organ systems and investigating the bigger picture within our bodies and looking at how our bodies manage to do all those incredible things it does without us having to tell it to, such as – How do we fight off diseases? How does oxygen make its way to the cells that need it? Looking at the human body on many different levels as we discover how each system carries out its job and works alongside the other systems. This course is an excellent stand-alone course and is also a PRE-IGCSE courses.

Available: Online, Flexible Format – enrol at anytime

Available: Online, Live – stay tuned for 2023 days/times

Science

INTRODUCTION TO GENETICS (CODE: SGEN – 6-SESSION COURSE) £45

Introduction to Genetics - A fascinating course covering the basics of genetics and inheritance, we will explore what DNA is and how it was discovered, how traits are passed down through generations and how it is that DNA makes us who we are and allows all our cells to have such different functions. This course is a platform for the future more advanced genetics courses I will be rolling out and also covers the aspects of genetics and inheritance needed for IGCSE Biology.

Available: Online, Flexible Format – enrol at anytime

Available: Online, Live – Starting 1st November, 11:15am (6 consecutive Tuesdays)

Science

PRACTICAL GENETICS - 13+ (CODE: SPGE – 6-SESSION COURSE) £45

This is the next level course for people who have done the 'Introduction to genetics' course or have a really good understanding of genetics. We will be investigating the use of genetics in forensics, looking at genetic illnesses - their causes and impacts on individuals who are impacted, exploring sex linked inheritance patterns, looking at the uses of cloning and discussing ethics around this as well as learning about the use of genetic modification.

Available: Online, Flexible Format – enrol at anytime

Available: Online, Live – Starting 21st March 2023, 11:15am (6 consecutive Tuesdays)

Science

CROSSOVER COURSE – PSYCHOLOGY/BIOLOGY (CODE: SC2 6-SESSIONS) £45

In this course we explore the crossover between GCSE Psychology, IGCSE Biology and IGCSE Human Biology. From neurobiology to sight and perception, when looking at how the human body functions, Psychologists and Biologists both play a part! When GCSEs and IGCSEs crossover, you get double the impact from one topic! An excellent course for covering the crossover and also a great taster course!

Available: Online, Flexible Format – enrol at anytime
Available: Online, Live – stay tuned for 2023 days/times

Science

Psychology

FOOD SCIENCE DELIGHTS (CODE: SFOO 4-SESSION COURSE) £30

You don't have to be Heston Blumenthal to be intrigued by the chemistry of food, nutrition and sensory perception. We explore a variety of key topics including flavours, sweetness, textures, acids and bases, how yeast works, how our senses work in helping us process sensory information, and more in this Science and Design & Technology course.

ELLIS'S WORLDVENTURES (11YRS – 12YRS - SECONDARY)

Ellis's Worldventures delivers the UK National Curriculum in a delightfully unique and interactive way.

Our inquisitive character 'Ellis' takes learners on an incredible journey through different times and places, exploring key curriculum topics along the way. An unconventional 'course' where you can step into Ellis's life of adventure and exploration. Written in first person to the reader, Ellis introduces new ideas and concepts which are embedded within an entertaining storyline. Your young person will be eagerly anticipating Ellis's weekly updates, activities, and interactions ... a creative

and interactive way to develop early Secondary stage knowledge.

Structure:

- Worldventures runs over 50 weeks, with weekly updates every Monday
- Each week brings Ellis's "update" which includes:
- a new story document from Ellis
- engaging and interactive activities, 1 for each day of the week
- extra supporting resources

(all based around the core elements of the National Curriculum, for this age group)

- New enrolments start on the 1st of each month
- Course Fees: each individual subject course is available for a yearly subscription fee of only £50

WVS4: Ellis's Worldventures – Science

Some of the curriculum topics that are covered include: cells, respiration, photosynthesis, ecosystems, the periodic table, the rock cycle, and much more!

Science

"After leaving school after being bullied we found you like a shining star and My daughter has LOVED every class and all 4 subjects that you have encouragingly taught her over the last 2 years. The education department could learn a lot from you. Thank you for your dedication and passion to teaching. "

NEUROSCIENCE/BRAINY STUFF (CODE: SNEU - 6-SESSION COURSE) £45

Do we only have lobes on our ears? Where do feelings of 'love' come from? How can you be blind if your eyes are undamaged? In this course, we explore the fascinating world of neuroscience and how the human brain works. A fascinating course for any learner interested in science, how the human body works or psychology. This is an excellent stand-alone course but also is a great GCSE Psychology taster course!

Available: Online, Flexible Format - enrol at anytime

Available: Online, Live - stay tuned for 2023 days/times

Science

Psychology

ILLUSIONS AND PERCEPTIONS (CODE: SILL - 6-SESSION COURSE) £45

How do optical illusions work? Why do we sometimes see things that are not there at all? How does the human eye see? In this course, we look at perception - how our eyes work and how our brain processes information. A brilliant course for learners interested in science, how the human body works or psychology. An ideal stand-alone course and also a perfect GCSE/IGCSE taster course for Psychology.

Available: Online, Flexible Format - enrol at anytime

Available: Online, Live - stay tuned for 2023 days/times

Psychology

Science

SLEEP AND DREAMING (CODE: SSLE - 6-SESSION COURSE) £45

Do dreams really have meaning? Why do we sleep? And how does the sun 'power' a variety of our most basic human activities. Join this course to find out all about everything from Sigmund Freud to why living in a cave can tell us about the importance of light for our bodies. This is an excellent stand-alone course but also is a great GCSE taster course for Psychology.

Available: Online, Flexible Format - enrol at anytime

Available: Online, Live - stay tuned for 2023 days/times

CRIME AND DEVIANCE (CODE: SCRD - 4-SESSION COURSE) £30

What is the difference between crime and deviance? How can twin studies help us understand if crime might be a result of nature vs nurture? How does the 'halo effect' work? This intriguing course explores some of the key questions about crime and deviance from a Psychological and Sociological perspective.

This is an excellent stand-alone course but also is a great GCSE Psychology / GCSE Sociology taster course!

Available: Online, Flexible Format - enrol at anytime

Available: Online, Live - Starting Nov 4th, 9:30am (for 4 consecutive Fridays)

Science

Psychology

Sociology

MEDIA AND SOCIETY (CODE: SMED – 6-SESSION COURSE) £45

Does it make a difference if TV shows show women doing housekeeping and show men racing cars? Does it matter if someone rich and powerful owns a newspaper? And what is the impact of social media on peoples' lives today? Join this fun and interactive course to explore the relationship between media and society. An ideal stand-alone course and also a perfect GCSE/IGCSE taster course for Sociology.

Available: Online, Flexible Format – enrol at anytime

Available: Online, Live – stay tuned for 2023 days/times

Sociology

Media

UK LAW, POWER AND POLITICS (CODE: SLAW – 6-SESSION COURSE) £45

Law, Politics and Citizenship in the UK – how are laws created in the UK? what does 'citizenship' actually mean? What is the difference between being a deviant and being a criminal? An ideal course for young people interested in UK law, politics, philosophy and sociology.

This is an excellent stand-alone course but also is a great GCSE Sociology taster course!

Available: Online, Flexible Format – enrol at anytime

Available: Online, Live – stay tuned for 2023 days/times

Sociology

GCSE PSYCHOLOGY – REVISION & EXAM PREP (2-SESSION COURSE) £30

This is a 2 day intensive course (with two 1.5 hour tutorials) covering key revision skills and exam skills, to be successful in Edexcel GCSE Psychology.

We specifically look at the most effective revision methods, important syllabus content, and past paper exam questions (and the skills needed to maximise chances of success on the exam)

Available: Online, Flexible Format – enrol at anytime after February half-term start

Available: Online, Live – February half-term (dates will be confirmed); Easter break (dates will be confirmed)

Psychology

GCSE SOCIOLOGY – REVISION & EXAM PREP (2-SESSION COURSE) £30

This is a 2 day intensive course (with two 1.5 hour tutorials) covering key revision skills and exam skills, to be successful in AQA GCSE Sociology. We specifically look at the most effective revision methods, important syllabus content, and past paper exam questions (and the skills needed to maximise chances of success on the exam)

Available: Online, Flexible Format – enrol at anytime after February half-term start

Available: Online, Live – February half-term (dates will be confirmed); Easter break (dates will be confirmed)

Psychology

“Wanted to say just how much DS is enjoying the mini neuroscience course with you. He absolutely looks forward to absorbing all of it each Friday morning and you completely hold his attention for the full hour which actually is saying quite a lot-he is utterly engaged in the subject matter and your wonderful vivacious style of teaching and sharing your knowledge. So, a big thank you to you for offering your expertise in this way. So happy that we found you!”

BUSINESS POWER (CODE: SPOW - 6-SESSION COURSE) £45

Robotics and AI or skilled human talent? Leaders or Managers? Entrepreneurs or Executives? This course looks at the word ‘power’ from a few angles: the role of technology/AI; business leadership; where does ‘power’ actually come from; how businesses are more and more powerful in society. Perfect for the budding entrepreneur, sociologist or economist! An excellent stand-alone course and also a perfect GCSE/IGCSE taster course for Business or Sociology. *Available: Online, Flexible Format – enrol at anytime;*
Available: Online, Live – stay tuned for 2023 days/times

Business

BUSINESS A TO Z (CODE: SBAZ - 6-SESSION COURSE) £45

The best of business, compressed into one short course! A delightful taster course, exploring the core aspects of what business is all about. What does running a business involve? Are marketing and advertising the same thing? What on earth are the 4 P’s? This course is an excellent stand-alone course but is also a GCSE/IGCSE Business and IGCSE Travel & Tourism taster course!
Available: Online, Flexible Format – enrol at anytime
Available: Online, Live – stay tuned for 2023 days/times

Business

YOUNG ENTREPRENEURS - CLUB (CODE: SYOU 6-SESSION COURSE) £45

Children are idea factories, problem solvers, creative thinkers! In this Club, we introduce entrepreneurial thinking and the principles of start-up opportunities – guiding and supporting children to develop ideas and make decisions, from branding to marketing and ultimately bringing their idea into reality. Young people learn by real world experiences, the challenges and rewards that come from being an entrepreneur. Suitable for young people aged 11-14.
Available: Online, Flexible Format – enrol at anytime
Available: Online, Live – stay tuned for 2023 days/times

Business

MARVELLOUS MARKETING (CODE:SMAR-6-SESSION COURSE)£45

Marketing and Advertising – we explore the 4P’s, review some of the best and worst examples of advertising, evaluate products and services that should never have been launched, and consider brand names that will make you laugh out loud! An ideal stand-alone course and also a perfect GCSE/IGCSE taster course for Business and Travel&Tourism.
Available: Online, Flexible Format – enrol at anytime
Available: Online, Live – stay tuned for 2023 days/times

Available: Online, Flexible Format – enrol at anytime after February half-term start
Available: Online, Live – February half-term (dates will be confirmed); Easter break (dates will be confirmed)

Business

ECONOMIC ABC'S (CODE: SECO – 6-SESSION COURSE) £45

Why does money burn a hole in your pocket (not just yours, everyone's!)? Who cares that the 'value of the pound' is going up or down? And how can you put an electric car in a 'basket of goods'? Join this fun and interactive look at the key economic principles that power business, consumer behaviour, and the world.

Economics

An ideal stand-alone course and also a perfect GCSE/IGCSE Economics taster course.

Available: Online, Flexible Format – enrol at anytime

Available: Online, Live – stay tuned for 2023 days/times

IGCSE ECONOMICS – REVISION & EXAM PREP (2-SESSION COURSE) £30

This is a 2 day intensive course (with two 1.5 hour tutorials) covering key revision skills and exam skills, to be successful in Edexcel IGCSE Economics. We specifically look at the most effective revision methods, important syllabus content, and past paper exam questions (and the skills needed to maximise chances of success on the exam)

Economics

Available: Online, Flexible Format – enrol at anytime after February half-term start

Available: Online, Live – February half-term (dates will be confirmed); Easter break (dates will be confirmed)

INTERNATIONAL DEVELOPMENT (13YRS – 16 YRS - SECONDARY)

The course is designed to help young people become more aware of the local, regional, national and international issues that affect International Development so that they will take a more informed and positive role in shaping the societies in which they live.

Economics

International Development deals with changes in how society works and the way in which these changes support or obstruct the greater realisation of human potential. It concentrates mainly on issues that are particularly relevant to the less economically developed countries and emphasises how economic, environmental, social and political processes interact.

Geography

The course includes:

- i) 30 weeks of Lessons, with each week's materials including: weekly proprietary lesson Notes (no textbook is required), weekly proprietary lesson Videos, and a range of additional supplementary multi-media materials
- ii) weekly assignments and projects
- iii) regular, unlimited tutor support via email and assignment feedback*

Overall, the course covers 1 academic year (30 weeks, and involves approximately 120 learning hours). The course can usually be completed within 12 months of enrolment, however as learners progress through the course at a self-led pace, they can extend or condense the learning hours if needed.

Course fees:

£100.00 – full course access (self-graded assignments + certificate)

(This course is popular with our international students, so do contact us for fees/payment details in your local currency)

"We love HomeMadeEducation. Excellent tutor, excellent course and excellent price. We did lots of research beforehand and HomeMadeEducation was definitely the best choice. Great price, great tutor, great courses."

SUSTAINABLE TOURISM (CODE: STOU – 6-SESSION COURSE) £45

Tourists are reaching the 'four corners of the globe' in greater numbers than ever before, and run the risk of destroying the very features they were attracted to in the first place. In this course, we explore what sustainable tourism is, how it can work, and why more and more countries around the world are relying on changing how tourism happens.

An ideal stand-alone course and also a perfect GCSE/IGCSE taster course.

Available: Online, Flexible Format – enrol at anytime

Available: Online, Live – stay tuned for 2023 days/times

FOSSIL FUEL FRACAS (CODE: SFOS – 6-SESSION COURSE) £45

From fracking to drilling, this course explores where fossil fuels come from, how they were formed, and some of the alternatives currently being considered – from hydro-electric dams to tidal power. We look at the impact on global warming – becoming a concern for young people around the world who are making their voices heard through petitions, demonstrations and more. A great stand-alone course and also a GCSE/IGCSE taster course for Geography or Environmental Management.

Available: Online, Flexible Format – enrol at anytime

Available: Online, Live – stay tuned for 2023 days/times

DISASTERS AND DILEMMAS (CODE: SDIS – 6-SESSIONS) £45

Volcanoes, hurricanes and earthquakes ... need we say more? We will ... this course explores where on earth natural hazards happen, why and how they happen, and how we can prepare ourselves.

A great stand-alone course and also a GCSE/IGCSE taster course for Geography or Environmental Management.

Available: Online, Flexible Format – enrol at anytime

Available: Online, Live – stay tuned for 2023 days/times

EARTHLY TOURISM (CODE: SEAT – 6-SESSION COURSE) £45

Beaches, waterfalls, geysers, oceans and seas are all key drivers behind why people choose their holiday destinations! In this course, we look at some of the major geographical features of the world and why these attract tourists to various destinations; we cover tourism, business, geography and international development. This is an excellent stand-alone course but also is a great IGCSE Geography and IGCSE Travel&Tourism taster course!

Available: Online, Flexible Format – enrol at anytime

Available: Online, Live – stay tuned for 2023 days/times

FOOD FOR THOUGHT (CODE: SFOD – 6-SESSION COURSE) £45

Don't log in hungry, this course explores where our favourite foods come from, how they are grown, and whether they will be around for future generations. We look at sustainable food production, and what we (and organisations like supermarkets) can do to improve food quality and quantity. Farming isn't just for country folk! A great stand-alone course and also a GCSE/IGCSE taster course for Environmental Management, Geography, Business

Available: Online, Flexible Format – enrol at anytime

Available: Online, Live – stay tuned for 2023 days/times

WEATHER OR NOT (CODE: SWEA 4-SESSION COURSE) £30

You don't have to be a meteorologist or geographer to be fascinated by powerful and unusual weather phenomenon. In this course, we look at a variety of weather events, why they happen, and their impact on the planet (and the living organisms dependent on it). Amazing facts about the world's weather and climate that affect where we travel to, what we do, the food we eat, and how we live. A course that covers a range of Environmental Science topics. *Available: Online, Flexible Format – enrol at anytime*
Available: Online, Live – stay tuned for 2023 days/times

Geography

ELLIS'S WORLDVENTURES (11YRS - 12YRS - SECONDARY)

Ellis's Worldventures delivers the UK National Curriculum in a delightfully unique and interactive way. Our inquisitive character 'Ellis' takes learners on an incredible journey through different times and places, exploring key curriculum topics along the way. An unconventional 'course' where you can step into Ellis's life of adventure and exploration. Written in first person to the reader, Ellis introduces new ideas and concepts which are embedded within an entertaining storyline. Your young person will be eagerly anticipating Ellis's weekly updates, activities, and interactions ... a creative and interactive way to develop early Secondary stage knowledge.

Geography

- Worldventures runs over 50 weeks, with weekly updates every Monday
- Each week brings Ellis's "update" which includes:
- a new story document from Ellis
- engaging and interactive activities, 1 for each day of the week
- extra supporting resources

(all based around the core elements of the National Curriculum, for this age group)

- New enrolments start on the 1st of each month
- Course Fees: each individual subject course is available for a yearly subscription fee of only £50

WVS3: Ellis's Worldventures – Geography

Some of the curriculum topics that are covered include: energy, population, development, weather, tourism, landscapes and more!

IGCSE GEOGRAPHY – REVISION & EXAM PREP (2-SESSION COURSE) £30

This is a 2 day intensive course (with two 1.5 hour tutorials) covering key revision skills and exam skills, to be successful in CIE IGCSE Geography. We specifically look at the most effective revision methods, important syllabus content, and past paper exam questions (and the skills needed to maximise chances of success on the exam)

Available: Online, Flexible Format – enrol at anytime after February half-term start
Available: Online, Live – February half-term (dates will be confirmed); Easter break (dates will be confirmed)

Geography

IGCSE ENV. MANAGEMENT – REVISION & EXAM PREP (2-SESSION COURSE) £30

This is a 2 day intensive course (with two 1.5 hour tutorials) covering key revision skills and exam skills, to be successful in CIE IGCSE Environmental Management. We specifically look at the most effective revision methods, important syllabus content, and past paper exam questions (and the skills needed to maximise chances of success on the exam)

Available: Online, Flexible Format – enrol at anytime after February half-term start
Available: Online, Live – February half-term (dates will be confirmed); Easter break (dates will be confirmed)

Environmental Management

INTERNATIONAL DEVELOPMENT (13YRS - 16 YRS - SECONDARY)

The course is designed to help young people become more aware of the local, regional, national and international issues that affect International Development so that they will take a more informed and positive role in shaping the societies in which they live.

International Development deals with changes in how society works and the way in which these changes support or obstruct the greater realisation of human potential. It concentrates mainly on issues that are particularly relevant to the less economically developed countries and emphasises how economic, environmental, social and political processes interact.

Geography

Economics

The course includes:

- i) 30 weeks of Lessons, with each week's materials including: weekly proprietary lesson Notes (no textbook is required), weekly proprietary lesson Videos, and a range of additional supplementary multi-media materials
- ii) weekly assignments and projects
- iii) regular, unlimited tutor support via email and assignment feedback*

Overall, the course covers 1 academic year (30 weeks, and involves approximately 120 learning hours). The course can usually be completed within 12 months of enrolment, however as learners progress through the course at a self-led pace, they can extend or condense the learning hours if needed.

Course fees:

£100.00 – full course access (self-graded assignments + certificate)

(This course is popular with our international students, so do contact us for fees/payment details in your local currency)

UNCHARTED TERRITORY (CODE: SCHA - 6-SESSIONS) £45

In this course, we explore the techniques and rules to create different types of charts and graphs, and why you can only use certain types of chart for certain types of data. What is a population pyramid? Are pie charts useful all of the time? How do you read a histogram? How can you turn a lot of information into an easy-to-understand visual?

An ideal stand-alone course and also a perfect GCSE/IGCSE taster course for Statistics and any of the Sciences (Pure, Social, Earth)

Available: Online, Flexible Format – enrol at anytime

Available: Online, Live – stay tuned for 2023 days/times

Geography

"I would like to say a huge thank you for the two brilliant short course's – DS is/has enjoying/enjoyed them so much, they've inspired her to not wait an additional year to start the GCSE Psychology. I hope it is not too late to sign up for the live sessions starting this September."

"E absolutely loves your class. For a child who has found it almost impossible to write coherent tidy notes. Her files have been a revelation. Thank you for how you have been teaching the class. I never imagined she would enjoy Economics so much."

"E says, 'Thank you for the feedback.' He is very encouraged by the feedback. E also seems to be enjoying writing more ever since you wrote that it was for his benefit. Thank you for making a difference in E's life."

FOOD SCIENCE DELIGHTS (CODE: SFOO 4-SESSION COURSE) £30

You don't have to be Heston Blumenthal to be intrigued by the chemistry of food, nutrition and sensory perception. We explore a variety of key topics including flavours, sweetness, textures, acids and bases, how yeast works, how our senses work in helping us process sensory information, and more in this Science and Design & Technology course.

Critical Thinking/Philosophy

LEADER OF THE LAND CLUB (CODE: SLEA 6-SESSION COURSE) £45

Being a world leader takes courage, determination, creativity and just a wee bit of "just do as I say!!" Develop your leadership and problem-solving skills by taking charge of an island nation – you'll have some tough challenges to face, some tricky dilemmas, some extra-ordinarily risky choices to make. But you won't be on your own, you will have trusted, experienced advisors there by your side, to help you along your way. A unique critical thinking course for 11 – 14yr olds.

Available: Online, Flexible Format – enrol at anytime
Available: Online, Live – stay tuned for 2023 days/times

AN INTRO TO PHILOSOPHY AND ETHICS – 13+ (CODE: SIPE – 6-SESSIONS) £60

Philosophy and ethics is a fascinating subject where students take the methods and tools of philosophical and ethical inquiry and apply them to contemporary beliefs and values and key issues facing the world today. How we live has a big impact on others, in terms of the relationships we cultivate, the behaviours we adopt or avoid and the principles we choose to live by. This course investigates our beliefs, values and decision-making processes and it challenges assumptions and ideas to see if they can still stand up as relevant and meaningful. The course includes the philosophical study of: Beliefs; Teachings; Practises

and the ethical study of the following themes: Relationships and families; Life and the universe; Peace and conflict; Crime and punishment; Human rights and social justice.

Available: Online, Live – Starting September 14th, 10:00 am

Crime Fiction – ECR (6 weeks £60) - 13+

Explore the fascinating fiction of the Crime genre and encounter some of the most famous detectives in literary history: from the phenomenal powers of deduction of Arthur Conan Doyle's Sherlock Holmes to the dramatic revelations of whodunit from Agatha Christie's Hercules Poirot to the more modern series of writers such as LJ Ross. We'll also uncover some teen sleuths from Enid Blyton's Famous Five and Maureen Johnson's Stevie Bell and The Box in the Woods. If you're the king of Cluedo then this is the course for you.

Available: Online, Flexible Format – enrol at anytime

Available: Online, Live – stay tuned for 2023 days/times

Festive Fables – EFFA (5 weeks £60) - 13+

Christmas is coming, a time filled with traditions, magic and gifts. Give your young author the opportunity to combine all 3 with our new Festive Fables course. Suitable for writers of any age and ability this 5 session, week-long course will guide your young person to craft a Christmas story of their very own. With an option to illustrate and print it could make a magical gift this Christmas.

Available: Online, Flexible Format – enrol at anytime

Available: Online, Live – running daily, across the third week of December: Dec 19th, 10:00am; Dec 20th, 2:00pm; Dec 21st, 10:00am; Dec 22nd, 1:00pm; Dec 23rd, 10:00am

“I just wanted to say a huge thanks! DD has just had her first Crime Fiction class which she really enjoyed. Thankyou so much for helping us make sure Home education is a enjoyable experience.”

““everything that you have taught them and the feedback you have been giving them throughout this short course has been invaluable. They feel as though they are already prepared and are not overly worried which is brilliant position for them to be in thanks to you.”

Some other fascinating topics ...

GCSE/IGCSE STUDY SKILLS (PREP FOR GCSE/IGCSE LEVEL STUDY)

An invaluable course which covers a range of skills, techniques and approaches, so that your young person can master study skills before the academic year starts, or to brush up if they have already started on a subject! Independent study skills can be key to exam success, and many young learners will benefit from learning how to take good study notes, how to maximise the value from reading text, how to manage their time, how to revise effectively (and more!) This course is available: **Online, Live – weekly: starting Tuesday July 26th, 1:00pm (running for 5 consecutive Tuesdays) OR starting Monday Dec 19th, 11:00am (running for 5 consecutive days). Online, Flexible/Recorded – available to start at any time.** £45 per person (includes tutorials, materials, assignments and tutor support).

UNCHARTED TERRITORY (CODE: SCHA – 6-SESSIONS) £45

In this course, we explore the techniques and rules to create different types of charts and graphs, and why you can only use certain types of chart for certain types of data. What is a population pyramid? Are pie charts useful all of the time? How do you read a histogram? How can you turn a lot of information into an easy-to-understand visual?

An ideal stand-alone course and also a perfect GCSE/IGCSE taster course for Statistics and any of the Sciences (Pure, Social, Earth)

Available: Online, Flexible Format – enrol at anytime

MONEY AND YOU (PERSONAL FINANCE AND FINANCIAL AWARENESS COURSES)

Finance is a part of our everyday life, and having basic personal financial knowledge is one of the most important things you can do to live a healthy, happy and secure life. Understanding the fundamentals of money, budgeting, saving and debt can: promote good savings habits; encourage financial awareness and responsibility; lead to good budgeting skills, to actively manage money and spend wisely; affect one's credit score, which impacts your entire life; lead to financial health and positive attitudes around money.

Our 'Money and You' courses are created, developed and run by a business and economics specialist, and highly experienced educator. Engaging, interesting and dynamic courses to really inspire your young person. Each topic features: i) a pre-recorded tutorial (with interactive aspects that allow your young person to 'play along at home'), ii) activities (assignments, quizzes, projects, etc.) , iii) a save-able information pack And, at the end of each course, your young person is also eligible for a personal Certificate of Achievement. (Key stages and ages below are guidelines)

Money and You - KS3 – Intermediate (CODE: SMON3) £45

This detailed course goes beyond the basics, and builds on foundation knowledge your young person already has (or has covered in the KS2 course)

1. How you feel about money
2. Different ways of paying for things
3. How banks work; bank accounts
4. Debt, loans, credit cards and interest
5. Savings and interest
6. Mortgages and compound interest
7. Budgets
8. Making Choices
9. Keeping your money safe
10. Other country's money
11. Rising Prices (Inflation)
12. Taxes

Available: Online, Flexible Format – enrol at anytime

Available: Online, Live – stay tuned for 2023 days/times

Secondary Course Formats

Secondary courses are available in two formats:

I) Online, Live format, using the Canvas learning platform and Live sessions on Zoom (includes video tutorials, documents, assignments & more!)

II) Online, Flexible format, using the Canvas learning platform and pre-recorded sessions (includes video tutorials, documents, assignments & more!)

Ellis's Worldventures uses a unique, interactive weekly 'timed drop' format

All courses include a range of interesting and engaging activities, and unlimited* tutor support!

"I really enjoyed your course and I wouldn't have ever imagined getting the grade I got. I'm over the moon with my result and I'm so grateful for your great teaching and help over the past year! I found your course so engaging and informative, I always felt included and interested in the live classes. I also found the course notes + homework enjoyable to read and work on each week. I never really found the homework to feel like a chore, mainly since I actually found it to be something I looked forward to sit down and do each week! I'm extremely excited for English Literature next year with you, can't wait to begin! Your English Literature preparation course was also so helpful and I'm so glad I asked about it"

"We found the course inspiring. Caitlin had such a gentle way of guiding the group through the concepts, with plenty of time to develop ideas ... We would highly recommend the course and will be signing up for more."

GCSE/IGCSE – Taster Courses, Exam Skills Courses, and Early Prep courses

Many of our secondary-age Short Courses on the previous pages are perfect **GCSE/IGCSE ‘Taster Courses’**, or are **Exam Skills** or **Early Preparation** courses. Below is a brief list (details in the Secondary section, starts on page 6):

GCSEs & IGCSEs (UK qualifications)

Online, Flexible timing format – enroll any time
Online, Live sessions – see the schedule at the end of this section

Developed for completion within 1 'academic' year ...but ... flexible and adaptable for shorter or longer timeframes.

All courses: cover the full exam board syllabus; include 'live'/'recorded' video tutorials, detailed support materials, weekly assignments; have unlimited tutor support; include revision and exam skills as standard! All proprietary, and specifically developed solely for our own courses.*

GCSE/IGCSE STUDY SKILLS

Due to popular demand, this stand-alone 5 week course covering a wide range of GCSE/IGCSE level study skills is now available for all young people taking, or about to take, GCSEs/IGCSEs – from “independent self-studiers” to “online course” users.

An invaluable course which covers a range of skills, techniques and approaches, so that your young person can master study skills before the academic year starts, or to brush up if they have already started on a subject! Independent study skills can be key to exam success, and many young learners will benefit from learning how to take good study notes, how to maximise the value from reading text, how to manage their time, how to revise effectively (and more!)

This course is available: **Online, Live – weekly: starting Tuesday July 26th, 1:00pm (running for 5 consecutive Tuesdays) OR starting Monday Dec 19th, 11:00am (running for 5 consecutive days).** **Online, Flexible/Recorded – available to start at any time.**

£45 per person (includes tutorials, materials, assignments and tutor support).

GCSE STATISTICS (AQA 8382)

GCSE Statistics is a favourite amongst home educators, and a useful foundation for so many other subjects! A great course for any student studying maths, psychology, sociology or the sciences – for a solid background in statistics and data! This course helps students develop a knowledge and understanding of statistical thinking and practice and how to use statistics in the real world. How do we develop statistics and how do we use them? It's actually really intriguing! Understanding statistics, and the research behind statistics, is also a vital life skill. Perhaps one of the most versatile areas of maths, it gives students the skills to collect, analyse, interpret and present data.

This course complements subjects such as GCSE Biology, Psychology, Geography, Business and Economics, and opens the door to a variety of careers – from weather forecasting to the biological sciences.

This course includes all necessary materials; there is no textbook required to be purchased for this course.

This course is available: **Online, Live – starting every September; Online, Flexible Timing – enrol anytime.**

IGCSE TRAVEL AND TOURISM (CIE 0471)

A fascinating combination of leisure and tourism, geography and business. This subject covers: understanding of the travel and tourism industry; the business of travel and tourism products and services; marketing tourism products and information services; the geographical, physical, social and economic environments in which travel and tourism takes place.

A fascinating course combining the best of tourism, travel, business and geography, it is a course providing a global and local perspective on travel and tourism. Learners gain an overview of the industry, and learn about

popular destinations, customer care, working procedures, travel and tourism products and services, and marketing and promotion.

Learners are encouraged to develop an understanding of tourist industry operations and problems, and competence in identifying procedures and solutions, by using best practice from industry and established business techniques and information systems.

This course includes all necessary materials; there is no textbook required to be purchased for this course.

This course is available: Online, Live – starting every September; Online, Flexible Timing – enrol anytime.

IGCSE ECONOMICS (EDEXCEL 4EC1)

This subject is interesting, relevant, and is much more interesting than you might expect at first glance – a fantastic combination of Social Science and Business. This course covers why individuals, business, and Governments make the decisions that they do, when it comes to money, buying and selling. If you wonder about the answers to questions like “Does a minimum wage mean workers are actually better off?”, “Why do all petrol stations on one corner charge the same price for petrol?” or “Is Starbucks good or bad for the world’s economies?” then this course is for you!

Economics is a unique subject – a social science with a business and political leaning. This course is designed to give students a sound understanding of economics, and the ability to use knowledge, skills and understanding appropriately in the context of individual countries and the global economy. Economics is a great crossover with business, sociology and global development. Students will learn about monopolies, interest rates, exchange rates, tariffs, unemployment and a variety of key Economic topics highly relevant to their adult lives! Content areas: The Market System; Business Economics; Government and the Economy; The Global Economy.

This course includes all necessary materials; there is no textbook required to be purchased for this course.

This course is available: Online, Live – starting every September; Online, Flexible Timing – enrol anytime.

GCSE SOCIOLOGY (AQA – 8192)

GCSE Sociology is an inspirational subject for many home educated learners. Want to change the world, fight injustice, end inequality? Then sociology is for you! This subject has students develop an understanding about society, and how sociologists study and understand its structures, processes and issues. The course covers: society, education, class systems, poverty, families, crime, and social inequality.

Sociology - is the study of human social life, social relationships and society. Sociology examines how we interact with others and are influenced and shaped through being members of groups and organisations ... sociology also examines how we influence and shape the groups and organisations we are part of. Sociologists try to understand the ways in which the choices of humans are limited or enabled by factors such as class, ethnicity, gender, age etc. And, sociologists try to understand how these things change over time, and why they change.

Sociology is an interesting field and relevant to careers such as business, government, social services, criminology. Sociology can help explain individual matters such as racial and gender identity, societal matters such as poverty and wealth, and global matters such as war and peace.

This course includes all necessary materials; there is no textbook required to be purchased for this course.

This course is available: Online, Live – starting every September; Online, Flexible Timing – enrol anytime.

GCSE PSYCHOLOGY (EDEXCEL 1PS0)

GCSE Psychology is a very popular subject amongst home educators. A perfect overview of the best aspects of modern day psychology, from Criminal Psychology to Child Development! This subject covers the process of psychology and its application in today's world, discussing key psychological questions. From dreaming to memory to optical illusions, all of the most interesting aspects are covered.

Understanding psychology offers immense benefits in understanding one's own behaviours and attitudes, the behaviour and attitudes of those around us, and in having a successful career (in many and varied fields) navigating office relationships, customer behaviour, and supplier negotiations. There is good crossover with sociology and human biology. Course Subject Content includes: Perception; Sleep and dreaming; Development; Illusions; Psychological problems; Memory; The brain and neuro-psychology; Social influence and social learning; Criminal psychology; Research methods and more!

This course includes all necessary materials; there is no textbook required to be purchased for this course.

This course is available: Online, Live – starting every September; Online, Flexible Timing – enrol anytime.

IGCSE BUSINESS (EDEXCEL 4BS1 AND CIE 0450)

IGCSE Business attracts a wide range of home educated young people. Perfect for the want-to-be corporate tycoon or enterprising entrepreneur! This subject covers both big business and small business, spanning a range of vital and interesting business topics: business activity and the changing environment; human resources; accounting and finance; marketing; production. Students will develop knowledge and understanding of: how businesses operate; different functions within businesses; differences between business types. We will explore different business contexts ranging from small enterprises to large multinationals as well as how businesses operate in local, national and global contexts. Perfect for students with an entrepreneurial bent as well as those interested in medium and large businesses as well!

People in business ... looks at people in organisations, focusing on their roles, relationships and management in business. Business finance ... explores the use of accounting and financial information as an aid to decision making. Marketing ... focuses on identifying and satisfying customer needs in a changing and competitive international environment. Business operations ... examines the way organisations use and manage resources to produce goods and services.

This course includes all necessary materials; there is no textbook required to be purchased for this course.

This course is available: Online, Live – starting every September; Online, Flexible Timing – enrol anytime.

CAMBRIDGE IGCSE ENVIRONMENTAL MANAGEMENT (0680)

IGCSE Environmental Management is a favourite amongst home educators. This is a fascinating course, which covers a wide range of subjects, from climate change to natural disasters to oceans and overfishing.

Environmental Management is concerned not only with the impact of humans on the planet but also with the patterns of human behaviour necessary to preserve and manage the environment in a self-sustaining way. Environmental Management recognises that human behaviour towards the environment is guided by the survival needs, perceptions and values of people. Underlying the syllabus there is a recognition that cultural, social and

political attitudes directly influence the economy of nature. A core principle of the syllabus is that sustainability will only be achieved by changes in the ways in which people think and make decisions.

The syllabus is designed to teach learners about sustainable development in a world where the security of resources and life-sustaining systems is endangered by human impact. It draws upon disciplines such as biology, Earth science, geography and economics.

Learners gain an understanding of the Earth's natural systems and how people use natural resources; they then investigate the impact of human development on the environment and learn how the environment can be managed sustainably in the future, from a local as well as a global perspective.

This course includes all necessary materials; there is no textbook required to be purchased for this course.

This course is available: Online,Live – starting every September; Online, FlexibleTiming – enrol anytime.

IGCSE GEOGRAPHY (CIE 0976)

IGCSE Geography is a fascinating course, which covers a wide range of Geographic subjects, from weather to mapping, and covering both physical geography and human geography. Through the Cambridge IGCSE Geography syllabus, learners will develop a 'sense of place' by looking at the world around them on a local, regional and global scale. Learners will examine a range of natural and man-made environments, and study some of the processes which affected their development. They will also look at the ways in which people interact with their environment, and the opportunities and challenges an environment can present, thereby gaining a deeper insight into the different communities and cultures that exist around the world.

Geography encourages learners to be: responsible, and aware of the duty present and future generations have in creating sustainable solutions to global issues; reflective, considering the similarities and differences between different environments, communities and economies; engaged, with geographical issues, ideas and solutions that will have positive long-term impacts on the physical and human environment.

This course includes all necessary materials; there is no textbook required to be purchased for this course.

This course is available: Online,Live – starting every September; Online, FlexibleTiming – enrol anytime.

IGCSE CIE (CAMBRIDGE) ENGLISH LITERATURE (0992)

CAIE English Literature (0992) is one of the most popular English literature courses amongst home educators.

Cambridge IGCSE Literature in English is a fascinating programme for students to read, interpret and evaluate texts through the study of literature in English. You will develop an understanding of literal meaning, relevant contexts and of the deeper themes or attitudes that may be expressed. Through your participation in this course, you will learn to recognise and appreciate the ways in which writers use English to achieve a range of effects, and you will be able to present an informed, and personal response to the material. The qualification also encourages the exploration of wider and universal issues, promoting a better understanding of ourselves and of the world around us. Texts covered in the course are: Poetry Anthology, Rebecca, Twelfth Night, and Journey's End. 2, or 3, exam papers: Paper 1(1.5hrs) and Paper 2(1.5hrs) Or Paper 1(1.5hrs) and Paper 3(45mins) and Paper 4(1.25hrs)

This course includes most of the necessary materials, with the exception of the official texts.

This course is available: Online,Live – starting every September; Online, FlexibleTiming – enrol anytime.

IGCSE CIE (CAMBRIDGE) ENGLISH LANGUAGE (0990)

CAIE English Language (0990) is an internationally recognised qualification for learners whose first language is English. In this course you will develop the ability to communicate clearly, accurately and effectively when both speaking and writing. You will acquire the skills necessary to use a wide range of vocabulary, and the correct grammar, spelling and punctuation to develop a personal style and an awareness of the audience being addressed.

The programme also promotes wider reading, both for your own enjoyment and to further your awareness of the ways in which English can be used. In addition to this, you will also develop more general analysis and communication skills such as inference and the ability to order facts and present opinions effectively.

2 exam papers: 2 hrs each

This course includes all necessary materials; there is no textbook required to be purchased for this course.

This course is available: Online,Live – starting every September; Online, FlexibleTiming – enrol anytime.

IGCSE EDEXCEL ENGLISH LITERATURE IGCSE (4ET1)

Edexcel English Literature (4ET1) is the perfect course for students looking to engage with and develop the ability to read, understand and respond to a wide range of literary texts from around the world. You will develop an appreciation of the ways in which writers achieve their literary effects and develop the skills needed for literary study.

This is a fascinating opportunity to explore, through literature, the cultures of your own and other societies and to find enjoyment in reading literature and understanding its influence on individuals and societies. The texts being studied are Romeo and Juliet, Of Mice and Men, and An Inspector Calls.

2 exam papers: 2 hours, 1.5 hours

This course includes most of the necessary materials, with the exception of the official texts.

This course is available: Online,Live – starting every September; Online, FlexibleTiming – enrol anytime.

IGCSE EDEXCEL ENGLISH LANGUAGE (SPECIFICATION B: 4EB1)

English language is a fundamental course for most young people taking GCSEs ... the Edexcel English Language (Spec B) syllabus is a favourite amongst home educators.

Edexcel IGCSE English Language is a fascinating course that develops your ability to read and understand the conventions of a wide range of texts from classic literature to contemporary blog posts.

You will enhance your ability to read critically and use the knowledge gained from wide reading to inform and improve your own writing. You will learn how to adapt your writing effectively and coherently to suit a variety of genres, audiences and purposes, while at the same time augmenting your vocabulary and written technical accuracy. IGCSE English Language also provides opportunities to listen to and understand spoken language, and use spoken Standard English effectively. This is a practical course and an internationally renowned qualification in communication.

This syllabus has 1 exam paper: 3 hours.

This course includes all necessary materials; there is no textbook required to be purchased for this course.

This course is available: Online,Live – starting every September; Online, FlexibleTiming – enrol anytime.

GCSE EDEXCEL ASTRONOMY (SPECIFICATION: 1AS0)

“Most people are fascinated by the night sky and are interested in stories about our continuing exploration of our Solar System and Universe. This course has been developed to build on that interest and to give an introduction to the subject of astronomy. The course will enable students to understand our position in the Universe, the movements of planets and stars, the cycles in the night and daytime sky, and the way in which we use technology to observe and interact with space. Students will follow an incredible story of how scientists, from ancient civilisations to the modern day, have used their imagination and carefully recorded visual measurement to explore the Universe in which we live.”

'As part of an Astronomy GCSE you need to have two observations signed off with your exam centre, HME will support you with completing these in terms of knowing what to do as well as offering feedback and guidance with the write ups. However, it is your responsibility to complete these independently and arrange with your exam centre regarding having these officially 'signed off.' Not all exam centres offer this service so we strongly suggest communicating with your exam centre and potentially looking around at different centre options before signing up for this course to ensure you have a plan in place.'

(Our “Intro to Astronomy” short course is a good foundation course/taster course for this GCSE)
(This course does use a textbook: *GCSE (9-1) Astronomy – A Guide for Pupils and Teachers (5th edition)* ISBN 978 0 9956483 0 2. There is no specialist equipment needed)

This course is available: Online, Live – starting every September; Online, Flexible Timing – starting every September.

IGCSE EDEXCEL BIOLOGY (4BI1)

A fascinating course that covers a range of interesting Biology topics, in a fun and engaging way.

The aims and objectives of this qualification are to enable students to:

- learn about unifying patterns and themes in biology and use them in new and changing situations
- acquire knowledge and understanding of biological facts, terminology, concepts, principles and practical techniques
- appreciate the practical nature of biology, developing experimental and investigative skills based on correct and safe laboratory techniques
- recognise the importance of accurate experimental work and reporting scientific methods in biology
- develop a logical approach to problem solving in a wider context
- prepare for more advanced courses in biology and for other courses that require knowledge of biology.

(This course does use a textbook: *Pearson Edexcel International GCSE (9-1) Biology Student Book: (Edexcel International GCSE) By Philip Bradfield (Author) Steve Potter (Author)*)

This course is available: Online, Live – starting every September; Online, Flexible Timing – starting every September.

IGCSE EDEXCEL CHEMISTRY (4CH1)

An interesting and engaging look at key Chemistry topics, including: principles of chemistry; inorganic chemistry; physical chemistry; organic chemistry.

The aims and objectives of this qualification are to enable students to:

- learn about unifying patterns and themes in chemistry and use them in new and changing situations
- acquire knowledge and understanding of chemical facts, terminology, concepts, principles and techniques
- apply the principles and concepts of chemistry to different contexts
- evaluate chemical information, making judgements on the basis of this information
- analyse, interpret and evaluate data and experimental methods, drawing conclusions that are consistent with evidence from experimental activities and suggesting possible improvements and further investigations
- develop a logical approach to problem solving in a wider context.

- prepare for more advanced courses in chemistry and for other courses that require knowledge of chemistry. (This course does use a textbook: Edexcel International GCSE (9-1) Chemistry. Student Book - Edexcel International GCSE Author Jim Clark)

This course is available: Online, Live – starting every September; Online, Flexible Timing – starting every September.

GCSE/IGCSE HISTORY

GCSE course: AQA GCSE History 8145; Edexcel GCSE History 1H10. IGCSE course: Edexcel IGCSE 4HI1; CAIE IGCSE 0977

We believe in the importance of learning from history. Our Core History (I)GCSE Course enables students to study different aspects of the past, so they can engage with key issues, such as conflict, understand what drives change and how the past influences the present. We've worked hard to include some exciting new topics for today's world that will resonate with students, helping them gain new insights into the world around them and are applicable across a range of exam boards and qualifications including AQA GCSE, Edexcel GCSE and IGCSE, and CAIE IGCSE.

	Term 1 Topic 1 America 1835-95	Term 1 Topic 2 Asia 1945-76	Term 2 Topic 3 The Normans	Term 2/3 Topic 4 Health and Medicine 1000-present	Spring Booster Topic 5 The French Revolution	Spring Booster Topic 6 South Africa 1948-1994	Spring Booster Topic 7 The 19 th Century Modern States
AQA GCSE History 8145	X	X	X	X			
Edexcel GCSE History 1H10	X	X	X	X			
Edexcel IGCSE 4HI1 (select 4 topics)	x	choice		choice	X	X	
CAIE IGCSE	X	X				X	X

Our course is designed to ensure a broad, comparable and coherent student experience, constructed around distinct principles which are carried through to assessment. The course ensures a substantial study of history as its structure embeds the requirement to study history across three eras, three time scales and three geographical contexts and incorporates each of the five specified elements. Breadth is thereby assured. Students will develop the ability to demonstrate knowledge and understanding of the key features and characteristics of the period studied; explain and analyse historical events and periods studied using second-order historical concepts; analyse, evaluate and use sources (contemporary to the period) to make substantiated judgements, in the context of historical events studied; and analyse, evaluate and make substantiated judgements about interpretations (including how and why interpretations may differ) in the context of historical events studied. The course provides an excellent foundation of knowledge for budding Historians and leads favourably to study beyond (I)GCSE.

Each syllabus includes 4 topics (there are required texts for each topic/syllabus) + exam skills & revision

This course is available: Online, Live – starting every September; Online, Flexible Timing – enrol at any time

IGCSE / GCSE MATHS (SELF-LED COMPENDIUM)

We haven't (yet) been able to find a brilliant Maths partner, to offer you an amazing tutor-led course. So, while we're still on the lookout for such a special person, we're thrilled to offer any young person enrolled on any of our tutor-led GCSE/IGCSE courses **free** access to this self-led IGCSE/GCSE Maths compilation bundle (we think of it as a 'Maths kit and caboodle!').

- this is a self-led compendium, providing materials for young people self-studying IGCSE/GCSE maths
- a full range of learning resources, videos, activities, quizzes and more are included, organized by topic (covering virtually all syllabuses commonly used by home educators)
- and, also included, are a range of peer-to-peer discussion forums, where young people can share ideas, solve problems, etc. with other young people just like them ... and belong to a self-led learner Maths community. So, they'll have everything, at their fingertips, all in one convenient place.

HOW GCSE AND IGCSE COURSES WORK

Developed for completion within 1 'academic' year (over approximately 30 weeks) ...but ... flexible and adaptable for shorter or longer timeframes.

* All materials are supplied, no further supplies, textbooks or materials are needed, apart from a computer and reliable internet access. (For English courses, literature and reading texts are not included; For Science courses, textbooks are not included)

* Each week includes tutorials, notes, extra resources, a range of assignments, exam and revision support

* Each course includes detailed and regular feedback for projects and assignments

* A wide range of revision materials are included, as well as detailed exam support and exam preparation

All proprietary, and specifically developed solely for our own courses.

All courses have unlimited* tutor support and include revision and exam skills as standard!

Online, Live & Interactive

- live & interactive tutorials (approx..1 hr per week) at a scheduled tutorial time
- weekly lesson notes
- real time access to the tutor
- virtual class/group interaction
- 24/7 online learning platform
- weekly assignments / regular feedback

Online, Flexible Timing/Recorded

- recorded, weekly tutorials
- no scheduled tutorial times
- weekly lesson notes
- regular access to the tutor
- virtual class/group interaction
- 24/7 online learning platform
- weekly assignments / regular feedback

"My girl studied Gcse psychology and loved it (and got an 'A' at 14) – I am hoping she will want to go onto A level at some point as she still talks about everything she learned and clearly has an affinity for it! I can't recommend HME highly enough! Massive value for money and very approachable"

"I just wanted to say that I can't recommend Kate highly enough! Her lessons are great. DD16 says she owes her 2 A's in Psychology and Sociology at GCSE and an A Level in Psychology. We've had issues with other teachers and tutors, but never Kate. When I asked her what was wrong with some of the others yesterday, my daughter's reply about teachers was "They aren't Kate. They don't make it interesting and engaging like she did. I miss her!". DD12 is now studying psych with Kate and really loves it too."

"Thank you so much Kate for all your support with Environmental Management/ Travel and Tourism. I have just received my results - Environmental management A and an A in Travel and Tourism!"*

"Thank you so much I got a 9 in both my English's (lit & lang)!! 🎉 Couldn't thank you enough! I'm soo pleased, and can't believe it! ❤️ I enjoyed both your courses so much! Thank you very much! Xxx"

A - Levels (UK qualifications)

A-Level English Literature (CIE – 9695)

Cambridge International AS & A Level Literature in English develops a set of transferable skills. These include critical analysis, constructing arguments and presenting knowledge and understanding in a balanced, articulate and fluent manner. Learners of Literature in English will be well-equipped for progression to higher education or directly into employment; finding that the skills needed will support them in a wide range of subjects and real-world situations. Year 1 texts/readings: Cat on a Hot Tin Roof, Gillian Clarke, Atonement and Unseen; Year 2 texts/readings: King Lear, Indian Ink, Persuasion and Jackie Kay (year 2 will change for 2024 to Hamlet, Experiments with an Air Pump, Pride and Prejudice, and Sujata Bhatt)

A-Level English Language (CIE - 9093)

Cambridge International AS and A Level English Language provides learners with the opportunity to study English language and its use in communication. Learners will be encouraged to respond critically to a wide variety of texts in a range of forms, styles and contexts, and to promote skills of communication, reading, research and analysis. Through their study, learners will develop an ability to read and analyse material, gaining further knowledge and understanding of English language features and issues. Learners will also develop the skills of writing clearly, accurately, creatively and effectively for different purposes and audiences.

Two year A-level Psychology (Edexcel – 9PS0)

This is a fascinating course covering the following areas, in-depth: Social psychology; Cognitive psychology; Biological psychology; Learning theories; Clinical psychology; Criminological psychology; Child psychology; Psychological skills: Methods, Synoptic review of studies, Issues and debates.

Two year A-level Sociology (AQA - 7192)

This course examines two key themes: socialisation, culture and identity; social differentiation, power and stratification. The central focus of the specification is UK society today, including the siting of UK society within its globalized context.

Two year A-level Business (Edexcel – 9BS0)

This course covers four of the key topics in Business, forming a firm foundation for further business studies: Theme 1: Marketing and people; Theme 2: Managing business activities; Theme 3: Business decisions and strategy; Theme 4: Global business

HOW A-LEVEL COURSES WORK

Each A-Level course runs over 2 years, 30 weeks per 'academic year', starting each September

Online, Live & Interactive (A-Level courses may also be available in the Flexible/Recorded format)

- live & interactive tutorials (1.5hr / week) with scheduled live tutorial times
- real time access to the tutor
- virtual class/group interaction
- 24/7 online learning platform
- weekly notes and assignments
- there are required textbooks for these courses
- all course fees include grading and detailed feedback for two past papers
- a wide range of revision materials are included, as well as detailed exam support and preparation
